INDEX TO VOLUME V

Abbe, Robert, Paget's disease of the bone; excellent repair after surgical operations, Abstract, 273.
Abdominal disease, value of *x*-rays in diagnosis of, 604.
Quadrant, upper right, roentgen diagnosis of diseases of, Abstract, 450.
Abreu, de, Radiology in France during the war, Abstract, 443.
Abscess, subdiaphragmatic or phrenic, 603.
Abscesses, multiple, of lung with spontaneous cure, 344.
Absence of tibiæ, 434.
Abstracts:
Abbe, Robert, Paget's disease of the bone; excellent repair after surgical operations, 273.
Abreu, de, Radiology in France during the war, 443.
Alvarez, W. C., and Taylor, F. B., Changes in rhythmicity, irritability and tone in purged intestine, 268.
Bailey, Harold, Use of radium in gynecological diseases, 110.
Barker, Lewellys F., Discussion—Symposium on oral sepsis, 544.
Oral sepsis and the digestive apparatus, 544.
Barling, Gilbert, Peptic ulcer opening into transverse colon, 45.
Barnard, T. W., and Shorten, J. A., Suppression of inverse current in discharges from secondary terminals of induction coils, 160.
